DETAILED ACTION

Allowable Subject Matter

1. Claims 14 and 16-31 are allowed.
2. The following is an examiner's statement of reasons for allowance: the prior art cited, taken alone or in combination with other, fails to teach or suggest using a unified memory of a switch to transfer data from a first computer to a second computer by accepting a first user command from a peripheral device, connected to the switch, to transfer data from the first computer to the unified memory and accepting a second command from the peripheral to transfer the data from the unified memory to the second computer.

The JP 2004234230A reference appears to teach a switching system with several memory units (see figure 1, elements 1c1 to 1cN) dedicated to each of the computers (see figure 1, elements 141, 142-14N) however, fails to teach a unified memory. It would not have been obvious to one of ordinary skill in the art at the time of the applicant's invention to combine these separate memory elements to form a unified memory. Furthermore, the Japanese application fails to meet the priority date of the present application.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
